

SUPSI

Master of Science in Cure infermieristiche

Ciclo di seminari sulla salute pubblica 15° Anniversario SSPH+

Informazioni

Il Master in Cure infermieristiche organizza un ciclo di lezioni aperte al pubblico con la presenza di relatori esterni, al fine di approfondire alcune tematiche legate al tema della salute.

I seminari rientrano nel percorso di studi proposto dal corso di Master e si terranno in lingua inglese.

Gli eventi in calendario si svolgeranno presso lo Stabile Piazzetta a Manno. Iscrizione online attraverso il seguente link:

www.supsi.ch/go/seminari-salutepubblica

Programma

23 ottobre 2019, 13.15-16.30

NCD and healthcare prevention

Dr. Sonja Kahlmeier

17 dicembre 2019, 09.00-12.15

Citizen Cohorts and Biobanks

Prof. Dr. Nicole Probst-Hensch

18 dicembre 2019, 13.15-16.30

Precision Epidemic Forecasting

Prof. Dr. Antoine Flahault

19 dicembre 2019, 09.00-11.30

Genetic and genomic screening programs

– making the nursing difference

Prof. Dr. Maria Katapodi

14 gennaio 2020, 09.00-12.15

Linking science with policies

– the example of air pollution

Prof. Dr. Nino Künzli

Ciclo di seminari sulla salute pubblica

15° Anniversario SSPH+

Dr. Sonja Kahlmeier

SSPH+ Fellow

Head of the Department of Health at the Swiss Distance University of Applied Sciences (FFHS). She also leads the research activities of the Department. She is involved in WHO, EU, national and local projects, and is teaching in medical school as well as in Bachelor and MAS courses. Previously, she also co-directed a WHO Collaborating Centre on Physical Activity and Health at the University of Zurich, where she continues to serve as lecturer.

Prof. Dr. phil. Nicole Probst-Hensch – PhD, MPH

SSPH+ Faculty member

Head of the Department of Epidemiology and Public Health (EPH) at the Swiss Tropical and Public Health Institute (Swiss TPH) in Basel and member of the Directorate. She is also head of the unit of Chronic Disease Epidemiology and principle investigator at SAPALDIA Cohort & Biobank.

Prof. Dr. Antoine Flahault

SSPH+ Deputy Director

Founding Director of the Institute of Global Health, installed at the Campus Biotech, a joint facility shared by UNIGE and EPFL. A Medical doctor by background, he specialized in public health and earned a PhD in biomathematics in Paris. He directed the WHO collaborating center on electronic disease surveillance and works as Full Professor at the University of Geneva from 2014.

Prof. Maria Katapodi – PhD, RN, FAAN

SSPH+ Faculty member

Professor of Nursing Science at the Faculty of Medicine of the University of Basel and Adjunct Associate Professor at the University of Michigan School of Nursing. He leads and cooperates with major initiatives for the translation and implementation of genetic and genomic knowledge into public health interventions, both in Switzerland and internationally.

Prof. Nino Künzli – MD, PhD, MPH

SSPH+ Director

Deputy Director of Swiss Tropical and Public Health Institute in Basel and Head of the Department of Education and Training (ET). He leads and cooperates with public health teaching in the University medical school, working as Full Professor of Public Health at the Medical Faculty of the University of Basel.

Da 15 anni la Swiss School of Public Health (SSPH+) riunisce sotto lo stesso tetto la comunità multidisciplinare e inter-universitaria degli scienziati della salute pubblica della Svizzera.

Con più di 200 professori e i loro team di ricerca e oltre 400 dottorandi, SSPH+ fornisce un modello unico e innovativo di collaborazione accademica nazionale tra discipline, facoltà e istituzioni con l'obiettivo di rafforzare la salute pubblica basata sulle evidenze scientifiche.
